

WELCOME

BWGE RESEARCH GRANT 1

Unravelling the functional and molecular mechanisms of ACLF by studying the cross-talk between liver and peripheral circulation immune cells at a single-cell level.

Rita **Azevedo**
KUL

BWGE RESEARCH GRANT 2

Molecular classification of IBD: the interplay of the genetic susceptibility, microbiome dysbiosis and immune system deregulation.

Nasim S. **Seyed Tabib**
KUL

BWGE RESEARCH GRANT 3

Development of irritable bowel syndrome and functional dyspepsia after infection with COVID-19.

Kathleen **Van Malderen**
UZA

Best Original Manuscript

Effectiveness and persistence of Vedolizumab in patients with inflammatory bowel disease: results from the Belgian REal-Life study with VEdolizumab (Be-RELIVE)" Acta Gastroenterol Belg. 2020 Jan-Mar;83(1):15-23.

*Catherine **Reenaers** et al.
CHU Sart Tilman*

Best Review Manuscript

Guidelines for an optimal management of a malignant colorectal polyp. What is essential in a pathology report? Acta Gastroenterol Belg. 2020 Jan-Mar;83(1):53-59.

*Hélène **Dano** et al.
UCL Saint-Luc*

BWGE Case Report:

Unusual cause of low abdominal pain: colon perforation due to a spontaneous migration of an intrauterine device.

*F. **GELDERS***
UZ LEUVEN

BIRD Oral Presentation:

Ultraproactive therapeutic drug monitoring based on point-of-care testing of infliximab is not superior to reactive drug monitoring in patients with inflammatory bowel disease: 1 year results of a pragmatic clinical trial.

*P. **BOSSUYT***

IMELDA BONHEIDEN

BASL Oral Presentation Basic:

A profibrotic role for the orphan G-protein coupled receptor 176 during hepatic stellate cell activation.

*V. **DE SMET**
UZ BRUSSEL*

BASL Oral Presentation Clinical:

Muscle fat content is strongly associated with NASH and decreases upon NASH resolution: a longitudinal biopsy-proven study in obese patients.

*M. **NACHIT***

UCL Saint-Luc

BSGIE Oral Presentation:

Impact of endoscopic duodenal and ampullary resection in familial adenomatous polyposis patients: Spigelman classification can be considered as outdated due to a low risk of invasive cancer in patients with regular follow-up and endoscopic resection, even in stage III and IV.

*M. **BELHASSINE**
UCL Saint-Luc*

BSGIE Abstract:

Pre-procedural Imaging Does not Predict Technical Failure of EUS-guided Intrahepatic Biliary Drainage: Post-hoc Analysis from a Large Retrospective Cohort.

*M. **BRONSWIJK***

UZ LEUVEN

GIREM Oral Presentation:

Disruption of the gut-liver axis in experimental sclerosing cholangitis and colitis triggers compositional and phenotypical changes in hepatic myeloid cell subsets.

*K. **DE MUYNCK**
UZ GENT*

BPC Oral Presentation:

Total pancreatectomy with islet auto transplantation – a new treatment option for chronic pancreatitis patients in Belgium.

*H. **VAN MALENSTEIN**
UZ LEUVEN*

BGDO Oral Presentation:

Tumor-Associated Copy Number Alterations in Plasma Cell-Free DNA from Metastatic Gastroenteropancreatic Neuroendocrine Neoplasm patients.

*G. **BOONS**
U/UZ ANTWERPEN*

BeSPGHAN Oral Presentation:

Development of a clinical risk score for significant liver fibrosis in pediatric non-alcoholic fatty liver disease.

*S. **LEFERE**
UZ GENT*

Working Group of Digestive Pathology Oral Presentation:

Intratumoral and peritumoral expression of CCR2 in pancreatic adenocarcinoma and its impact on prognosis.

*C. **BOUCHART***
ULB BORDET

Working Group of Digestive Pathology Case Report:

Clinical course and histopathological findings in DGAT1 mutation linked congenital diarrhea. Case report of a 17-year-old patient.

*E. **DEOLET***
UZ GENT
