

## **Friday February 11**

### **Session 1: Vascular liver disease and portal hypertension**

**Moderators: Christophe Van Steenkiste (AZ Maria Middelaers), Sander Lefere (UGent)**

- 13:00 A clinical update on vascular liver disease.  
Pierre-Emmanuel Rautou / Paris, France
- 13.30 A translational update on portal hypertension and pathological vascular alterations.  
Sarah Raevens / UGent
- 14:00 Coffee break

### **Session 2: Clinical cases**

**Moderators: Lukas Van Melkebeke (UZ Leuven), Delphine Degre (ULB Erasme)**

- 14.10 Y 01 Hemolytic anemia & cirrhosis : about a case.  
S. ZIANE BOUZIANE (1), C. LELUBRE (1), W. SOUB DEFEU (1), J. COFINO CASANUEVA (1), V. CHUA (2) / [1] CHU de Charleroi, Hôpital Marie Curie, [2] UCL Saint-Luc, Brussels,
- 14:20 Y 02 Non-Alcoholic Steatohepatitis and bariatric surgery: an unwarranted improvement.  
I. DELALÉEWE, J. AOUN, T. SERSTÉ, J. MULKAY, A. HOYOIS, A. CUVÉLIER, P. EISENDRATH / CHU Saint-Pierre, Brussels
- 14:30 Y 03 Recurrent Mycoplasma pneumoniae infection causing hepatitis and cholestasis in a young girl.  
E. LEVY (1), Y. VANDENPLAS (2), K. HUYSENTRUYT (2), E. DE GREEF (2) / [1] CHU Saint-Pierre, Brussels, [2] UZ Brussel
- 14:40 Y 04 Intrahepatic cholangiocarcinoma with predominant ductal plate malformation pattern: an unusual mimicker of benign lesion.  
F. NOEL (1), O. DETRY (1), C. SAMPOUX (2), N. BLETARD (1) / [1] CHU of Liège, [2] CHUV Lausanne, Lausanne, Switzerland
- 14:50 Y 05 Autoimmune hepatitis developing after SARS-CoV-2 vaccination: series of three cases.  
G. RASSCHAERT (1), S. FRANÇOIS (1), A. VERBEECK (2), M. SCHILS (1), M. AERT (1), P. LEFESVRE (3), I. COLLE (4), H. REYNAERT (1) / [1] UZ Brussel, [2] ASZ Aalst, [3] UZ Brussel, [4] UZ Gent

15:00 Y 06 USP53 gene: The new kid on the block causing low GGT cholestasis.  
A.RAVINDRANATH, R. WADHWA, M. WADHWA / Apollo BGS Hospital,  
Mysore, India

15:10 Coffee break

**Session 3: Rising stars in the liver community**

**Moderators: Vincent De Smet (VUB), Rob Bielen (UZ Leuven)**

15.20 Best Translational paper at BASL winter meeting:

Intestinal permeability, microbial translocation, changes in duodenal and fecal microbiota,  
and their associations with alcoholic liver disease progression in humans.

Luca Maccioni / UCL

15.45 Best Basic paper at BASL winter meeting:

Diet Reversal and Immune Modulation Show Key Role for Liver and Adipose tissue T Cells in  
MurineN.

Mikhail Van Herck: onalcoholic Steatohepatitis / UAntwerpen

16.10 Closing of meeting

Antonella Putignano / ULB Erasme
